SUSTAINABILITY

Oxford Food Hub

As part of our commitment to sustainability and reducing food waste, we proudly partner with Oxford Food Hub. Through this collaboration, we donate surplus food to the Hub, which is then distributed to local community groups in need. This initiative not only helps minimise food waste but also supports vulnerable individuals and families by providing access to fresh, nutritious food.

Oxford Food Hub plays a crucial role in fighting food poverty and promoting environmental sustainability by connecting food donations with charities and groups that help those facing hardship. By working together, we not only reduce food waste but also contribute to a network of support that delivers fresh, nutritious food to those who need it most. We are committed to continuing this partnership, helping to make a positive impact on both the environment and the local community.
